

Open Account and Supply Chain Solutions

Open account

Trade directly with organisations that have a good financial status and that also recognise your business' good financial standing using HSBC's open account solutions. You may even be able to take advantage of import and export finance without the need for an underlying documentary credit (letter of credit). Our supply chain solutions are designed to help you optimise working capital, reduce costs and gain better visibility and control over receivables.

Our open account solutions

Open account export

Facilitate early payment to your suppliers once goods have shipped, with no need to purchase receivables.

Supply chain solutions

Free up working capital and lower operational costs for you and your trading partners with a more efficient supply chain.

For Eligibility and Documentation, please contact your Trade Relationship Manager.
